

SERIAL NUMBERS

Please record the pump model and serial number, Albany will need this information when you require parts or service, should any problems occur with the pump in its lifetime we have a spares and repair service. The use of genuine Albany parts will provide the safest and most reliable operation of your pump. ISO certification and quality control procedures ensure the parts are manufactured to the highest quality and safety levels. Please contact Albany for details on genuine pump parts.

Please e-mail: sales@albany-pumps.co.uk

To help us identify the pump Albany will need to know the pump serial Number which is stamped into the pump casing. Typical positions for serial number are shown below.

In the case of pump sets our nameplate can be found on the bedplate.
